

FLOORS2YOU

WARRANTY

One year warranty on installation. If there are any issues involving how the product was installed for one year after the installation end date, Floors2You will come and resolve the issue. This does NOT apply to the material itself, only problems arising from how the flooring was installed.

5-27 year warranty on the materials. This will depend on the supplier and product you choose; each product has a pre-specified warranty as determined by the supplier. We are happy to tell you which ones have the longest warranties and the specifications surrounding them.
